

COMPANY POLICY

SUSTAINABILITY POLICY

Milbury Contractors Ltd is committed to promoting sustainability. Concern for the environment and promoting a broader sustainability agenda are integral to Milbury Contractors professional activities and the management of the organisation. We aim to follow and to promote good sustainability practice, to reduce the environmental impacts of all our activities and to help our clients and partners to do the same.

Our sustainability definition and ambition

We are committed to continually improve the integration of sustainability into our working environment and business processes. Our aim is to play a proactive role in contributing to achieving sustainability where we have influence. We are committed to accountability and transparency in our sustainability performance.

Our Sustainability Policy is based upon the following principles:

- To comply with, and exceed where practicable, all applicable legislation, regulations and codes of practice.
- To integrate sustainability considerations into all our business decisions.
- To ensure that all staff are fully aware of our Sustainability Policy and are committed to implementing and improving it.
- To minimise the impact on sustainability of all office and transportation activities.
- To make clients and suppliers aware of our Sustainability Policy and encourage them to adopt sound sustainable management practices.
- To review, annually report and to continually strive to improve our sustainability performance.

To put these principles into practice we will:

Travel and meetings

- Walk, cycle and/or use public transport to attend meetings, site visits etc, apart from in exceptional circumstances where the alternatives are impractical and/or cost prohibitive. We participate in and actively encourage the government Cycle to Work Scheme.
- Include the full costs of more sustainable forms of transport in our financial proposals, rather than the least cost option which may involve travelling by car or air. Where the only practical alternative is to fly, we will include costs for full air fares rather than budget airlines in our financial proposals.
- Avoid physically travelling to meetings etc where alternatives are available and practical, such as using Microsoft Teams meetings and efficient timing of meetings to avoid multiple trips. These options are also often more time efficient, while not sacrificing the benefits of regular contact with clients and partners.
- To reduce the need to travel to meetings and elsewhere, and facilitate regular client contact, we will provide laptops to our managers and actively encourage Microsoft Teams meetings for the duration of a project where appropriate.
- Reduce the need for our staff to travel by supporting alternative working arrangements, including home working etc, and promote the use of public transport by locating our offices in accessible locations.
- Use an emission recording scheme for business travel to monitor our impact.

COMPANY POLICY SUSTAINABILITY POLICY

Purchase of equipment and consumption of resources

- Minimise our use of paper and other office consumables, for example by double-siding all paper used, and identifying opportunities to reduce waste.
- As far as possible arrange for the reuse or recycling of office waste, including paper, computer supplies and redundant equipment.
- Reduce the energy consumption of office equipment by purchasing energy efficient equipment and good housekeeping.
- Seek to purchase electricity from a supplier committed to renewable energy. Seek to maximise the proportion from renewable energy sources, whilst also supporting investment in new renewable energy schemes.
- Ensure that timber furniture, and any other timber products, are recycled or from well-managed, sustainable sources and are Forest Stewardship Council (FSC) certified.
- Purchase fair-trade and/or organic beverages.

Working practices and advice to clients

- Undertake voluntary work with the local community and/or environmental organisations and make donations to seek to offset carbon emissions from our activities.
- Ensure that any associates that we employ take account of sustainability issues in their advice to clients.
- Include a copy of our Sustainability Policy in all our proposals to clients.

Review

The effectiveness of this policy and associated arrangements will be reviewed annually under direct Supervision of the Company Managing Director.
